THE HOMAGE OF JUSTICE.

We have compiled, from various sources, the following disinterested testimonials, which were commanded from their several authors by the lofty patriotism, valor, talents and success of General Harrison, long before he was named for the Presidency, and in times which ought to vige them weight sufficient to bear down all the petty calumnies and quibbling objections which party malignity may now presume to forge against the war-worn and time honored patriot and soldier. and soldier.

The authorities we present against the attacks The authorities we present against the attacks of loco foco federalism, and which we have stereotyped as an impregnable barricade against all opposition, are no less than the Congress to the United States, the Legislatures of Indiana, and of Kentucky, James Madison, Jas. Monroe, Col. Richard M. Johnson, Anthony Wayne, Langdon Cheves, Simon Snyded, Gov. Shelby, Com. Perry, Col. Choghan, Colonel Dayles, and others, including in the illustrious

Col. Richard M. Johnson, now Vice President of the United States, said, (in Congress)—

"Who is Gen. Harrison! The son of one of the signers of the Declaration of Independence, who spent the greater part of his large fortune in redeeming the pledge he then gave, of his 'fortune, life and sacred honor,' to secure the liberties of his country.

"Of the career of Gen. Harrison I need not speak—the history of the West, is his history. For forty years he has been identified with its interests, its perils and its hopes. Universally beloved in the walks of peace, and distinguished by his ability in the councils of his country, he has been yet more illustriously distinguished in the field.

"During the late war, he was longer in active service than any other General officer; he was, perhaps, oftener in action than any one of them, and never sustained a defeat."

JAMES MADISON, in a special message to Congress, Dec. 18, 1811, said,

gress, Dec. 18, 1811, 81d,

While it is deeply lam ted that so many valuable lives have been lost in the action which took place on the 7th ultimo, Congress will see with satisfaction the dauntless spirit of fortitude victoriously displayed by every description of troops engaged, as well as the collected framess which distinguished their commander on an occasion requiring the ulmost exertions of valor and discipline.

James Madison in his message to Congress, November, 1819, said,

An ample force from the States of Kentucky, Ohio, Pennsylvania, and Virginia, is placed, with the addition of a few regulars, under the command of Brigadier General Hausson, who possesses the entire confidence of his fellow soldiers, among whom are citizens, some of them volunteers in the ranks, not less distinguished by their political stations than by their personal merits.

In Mr. Madison's message of Dec. 1813, the compliment was extended, as follows:

The success on Lake Erie having opened a pas The success on Lake Eric having opened a passage to the territory of the enemy, the officer commanding the Northwestern arms, transferred the war thither, and, rapidly pursuing the hostile troops, fleeing with their savage associate, forced a general action, which quickly terminated in the capture of the British, and dispersion of the savage force.

This result is signally honorable to Major General, Harrison, by whose military talents it was prevented.

Harrison, in 1811, by eleven of the officers who fought under his banner at the battle of Tippecanoe:

Should our country again require our services to oppose a civilized or a savence for, we should march under General Harrison with the most perfect confi-dence of victory and fame."

Message of Simon Snyder, Governor of Pennsylvania, Dec. 10, 1813.

"Already is the brow of the young warrior, Cro-gan, encircled with laurels, and the blessings of thou-sands of women and children rescued from the scalp-ing knife of the ruthless savage of the wilderness, and from the still more savage Proctor, rest on Harrison and his gallant army."

In the Legislature of Indiana, on the 12th Nov. 1811, the Speaker of the House of Representatives, Gen. Wm. Johnson, thus addressed Gen. Harrison.

"Sir—The House of Representatives of the Indiana territory, in their own name, and in behalf of their constituents, most cordially reciprocate the congratulations of your Excellency on the glorious result of the late sanguinary conflict with the Shawnee Prophet, and the tribes of Indians confederated with him; when we see displayed in behalf of our country, not only the consummate abilities of the general, but the heroism of the man; and when we take into view the benefits which must result to that country from those exertions, we cannot, for a moment, withhold our meed of applause."

Legislature of Kentucky, Jan. 7, 1812.

Gen. Anthony Wayne, in his Letter to the Secre-

ary indian Battle, in 1792, said:

"My faithful and gallant Lieutenant Harrison rendered the most essential service, by communicating my orders in every direction, and by his conduct and bravery, exciting the troops to press for victory."

"The measures adopted by Gen. Harrison, (says Major Croghan,) so far from deserving censure, are the clearest proofs of his keen penetration and able generalship."

The healing virtues which they possess have been
known since the earliest period of the settlement of

since it has been the favorite resort of all such invalids as could avail themseves of its health-restoring influences. The reputation of these waters has increased in the same rapid proportion with which they

celebrity equal to any of the mineral springs of Europe,
and far exceeding that to which any other in the U.

The diseases for which the White Sulphur Water has been most celebrated and actively useful are the following: Dyspepsia, liver complaints, bilious state of the system, chronic rheumatism, neuralgia, properly so called, and nervous affections generally, costiveness, jaundice, calculus, chronic affections of the kidneys, chronic inflammation of the bladder, gleet, hemorrhoids or piles, hypochondriasis or low spirits, dependent on derangements of the stomach and liver, spasmodic affections, unattended with fever, water brash diarrhosa or chronic dysentery, general debility, unattended with acute disease. In chlorosis and other similar affections, peculiar to females, this water has almost invariably displayed most happy and triumphant results. In that enfeebled and peculiar condition of the system resulting from the long protracted or injudicious use of mercury, and in the secondary symptoms of reneral disease, often connected with this peculiar state of the system, the White Sulphur Water has displayed its very happiest effects. In profuse salivation from mercury all reliance may be placed upon it. In cutareous diseases, or obstinate cruptions on the skin, perhaps no internal remedy can be used so advantageously. In ill-conditioned ulcers its curative effects have long been known and appreciated.

CONSUMPTION! CONSUMPTION! that fell destroyer which slays its thousands and tens of thousands annually. How shall we arrest its fatal progress before it takes hold upon the vitals? I would answer at once, take some suitable medicine to arrest the disease at the very commencement. How very many do we see in the world, whose delicate frames look scarcely able to support even a short reign of existence—but for the timely care and proper means they make use of, oftentimes will far outlive the most athletic and robust, who neglect such timely care and proper means as are placed within their reach, which would unquestionably arrest if taken in proper time. I was induced to give them a trial, the result of which, after a few weeks, has been beyond my most sanguine expectations; in truth, they have offered me all the relief that could be anticipated through the agency of a "good Samaritan." Ever grateful for the relief tha above medicine has afforded me, I cheerfully recommend it to aid in the cause of most sanguine expectations; in truth, they have offered me all the relief that could be anticipated through the agency of a "good Samaritan." THE MADISONIAN-PROSPECTUS, 1840.

THE MADISONIAN supports in good faith, and with all its ability and energy, the nominations of the Harrisburg Convention, viz:

FOR PRESIDENT, WM. HENRY HARRISON, of Ohio. FOR VICE PRESIDENT, JOHN TYLER, of Virginia.

Some of the reasons upon which its "uncompromising hostility to the re-election of Martin Van Buren," on the one hand, and its preference for General Harrison on the other, are founded, will be briefly set forth, and contrasted as follows, to wit:

It opposes the re-election of Mantin Van Bunen, It advocates the election of General, Harrison

1. He is pledged to serve, if elected, but one than one team and in office more than one team.

2. Every prominent act of his administration has not only hampered the interests and prosperity of the country, but has been an open violation of the principles and professions of the Republican party.

3. The tendency of federal action under his administration is to absorb the powers of the State Governments, and to etect at Washington a despote system of Centralism and Consolitation.

4. He is the instrument of a party, and not the President of the Union.

5. He is inaccessible to the people—indifferent to their wants and interests—contemns their will, by refusing to acquiesce in decisions of the majority—is selfish in his views, and sectional and partial in his action—entertains an estimate of human nature so low that it is degrading for an upright citizen to accept an office at his hands—acting upon the principle that the people are corrupt, and that every man has his price, bringing the patronage of his office in conflict with the freedom of their elections—assuming complete power over the people for himself, and disclaiming any duty in their behalf as incumbent on him in return.

6. He wants the whole moneyed yours of the first prominent act of his life proves him to be a friend and servant of his country, and a sterling before and servant of his country, and a sterling before the country, before a depublican in theory and particle.

18. Considering the prospects of war, and the various foreign and domestic relations and future hopes of the country, Mr. Van Buren, who, we infer from its conduct, is wanting, either in integrity or capacity, is not the man for the crisis.

Thus every man in the Opposition may give the reasons of the faith that is in them. Thus have we a Thus every man in the Opposition may give the reasons of the faith that is in them. Thus have we a righteous cause, and unimpeechable candidates. But an active, wily and corrupt party, armed with the power and patronage of the government, and led on and defended by a pensioned press and swarms of interested partizans, struggle desperately against us. We have the means of beating them. Mr. Van Buren is already in a minority of the whole People of the Union, as the returns of the last federal elections show. We can increase the majority against him. We can meet and repel the attacks of our enemies—refute their misrepresentations, and expose their falsehoods and calumnies. Give free circulation to the truth, and a virtuous and discerning democracy will acclaim a triumph for Liberty and the Fariner of North Bend.
